

GENERAL INFO

Cunningham's Pub & Grill is the perfect place for your next party. We will work with you to accommodate your group size, food and drink needs—all within your budget. With a limited budget for example, we always recommend choosing food vs. alcohol. Your guests will likely remember the great food at your party over you providing them with one or two cocktails. This of course is up to you as the host, but we find food to be a better use of budget, allowing your guests the option to purchase their own cocktails.

If you decide you would like to provide alcohol to your guests, we have found the easiest approach starts with an open bar. Another option is to offer your guests 'drink tickets'. The maximum for each drink ticket can be set in advance as well as any stipulations such as no 'top shelf alcohol' or 'shots'. These are parameters that you choose and our service staff will follow.

All drink tickets will be supplied by Cunningham's and we leave it up to your discretion as to how you would like to distribute to your guests. The tickets have no real value other than the fact that guests can order a drink of their choosing with the ticket.

Let Cunningham's help you make your next party a memorable experience with our inviting atmosphere, exceptional food, drinks and caring staff.
